PROFILE

Dedicated Front-End Software Engineer with experience in both Front-End and Back-End development. Passionate about crafting intuitive, user-friendly interfaces and building efficient server-side solutions. Committed to continuous learning and growth, striving to deliver practical, reliable, and impactful web applications that meet user needs

WORK EXPERIENCE

Senior Front End Developer

2024-2025

H&K (Uravo) Japan

- Developed and maintained user interfaces for HRTech platforms using React.js, enhancing user engagement by 30%.
- Collaborated with design and back-end teams to implement responsive and intuitive interfaces, improving user satisfaction by 25%.
- Optimized application performance, reducing load times by 40% through efficient code practices.
- Mentored junior developers, promoting best practices and code quality

Front-End Software Engineer

2023-2024

Amir Group - UAE

- Developed the frontend for a comprehensive ERP system and e-commerce website at Amir Group using React.js, enhancing the user interface for a more intuitive and seamless experience.
- Collaborated with backend teams working with Django to ensure smooth integration and functionality of B2B solutions
- Significantly improved the company's digital infrastructure by delivering a user-friendly frontend that contributed to optimizing business operations and overall efficiency.

Testing Frameworks:

- Jest
- React Testing Library

Back-End:

- Node.js
- Express
- Supabase
- Firebase

Database & ORMs:

- MongoDB
- Mongoose
- PostgreSQL
- Prisma
- SQLite

Cross-Platform:

- Flutter

EDUCATION

Business Information
Systems
Westminster International
University in Tashkent
2020 - 2025

LANGUAGES

- English
- Uzbek

Front End Developer

2020-2020

Westminster International University in Tashkent

- Contributed to the development of a Learning Management System (LMS) as a Front-End Developer, focusing on creating a seamless and intuitive user experience.
- Designed and implemented a clean, user-friendly interface to ensure smooth navigation and accessibility for all users.
- Utilized React.js and modern web technologies to build interactive and responsive features, enhancing the overall user experience.
- Collaborated closely with cross-functional teams to integrate key functionalities, ensuring the platform was both robust and effective.
- Proud to have played a part in supporting the education sector by delivering a reliable and innovative e-learning solution.

Full-Stack Software Engineer

2021-2025

Innovative Centre

- Developed an LMS CRM Exam Registration website using React TypeScript and Node.js, streamlining the exam registration process, reducing errors, and increasing operational efficiency.
- Built a TKT exam result release platform with React TypeScript and Node.js, enabling automated result distribution and minimizing delays, leading to an improved student experience
- Created a book management system leveraging React TypeScript, Node.js, and Supabase, optimizing cataloging, tracking, and inventory management for seamless library operations.
- Designed and implemented a student homework performance tracker for an innovative center using React TypeScript, Node.js, and Supabase, providing real-time analytics on student progress and enhancing instructional decision-making.
